

DARASAN - R

Frontend Developer

Profile

I am passionately pursuing my education, and I am now ready to apply my knowledge to real-world tasks(Frontend Developer, Software Engineer). I've had some industry related work experience up to this point, and I've been exposed to a lot of technical environments. I cherished working with real businesses to address real issues. I can able to work in a dynamic team environment.

Work Experience

01-May-2024

01-June-2024

Sharp Career Technologies

Frontend Developer Intern - Noida, Uttar Pradesh, Remote

- I built dynamic user interfaces using HTML, CSS, and Bootstrap.
- This experience honed my technical skills and emphasized the importance of collaborative problem-solving

Education

- Consistent Learning** -> Achieved Top 10 selection in NxtWave Independence Day mega challenge (CCBP 4.0 academic), securing a spot for 16 weeks of consistent learning

Project

Development of web model for large scale collection & utilization of used cloths / books / shoes.

Frontend Developer

- A clothing donation platform: This online system would connect donors with people in need, promoting sustainability by reducing textile waste.
- A sustainable clothing marketplace: This platform would focus on buying, selling, and recycling gently-used, eco-friendly clothing, again promoting a more sustainable fashion industry.

Portfolio

Frontend Developer

- As a front-end development intern at SharpCareer Technologies, I built a personal portfolio website using HTML, CSS, Bootstrap, and JavaScript to showcase my skills and experience.
- This portfolio utilizes HTML for structure, CSS for styling, Bootstrap for responsiveness, and JavaScript for interactivity.

Restaurant Website

Frontend Developer

- Developed a responsive restaurant website using HTML, CSS, Bootstrap, and JavaScript at SharpCareer Technologies.
- Implemented dynamic content, custom styling, and optimized performance to enhance user experience and meet client specifications.
